

Annex C
Logical Framework for the project

LOGICAL FRAMEWORK

	Intervention logic	Objectively verifiable indicators of achievement	Sources and means of verification	Assumptions
Overall objectives	<i>What are the overall broader objectives to which the action will contribute?</i>	<i>What are the key indicators related to the overall objectives?</i>	<i>What are the sources of information for these indicators?</i>	
Specific objective	<i>What specific objective is the action intended to achieve to contribute to the overall objectives?</i>	<i>Which indicators clearly show that the objective of the action has been achieved?</i>	<i>What are the sources of information that exist or can be collected? What are the methods required to get this information?</i>	<i>Which factors and conditions outside the Beneficiary's responsibility are necessary to achieve that objective? (external conditions) Which risks should be taken into consideration?</i>
Expected results	<i>The results are the outputs envisaged to achieve the specific objective. What are the expected results? (enumerate them)</i>	<i>What are the indicators to measure whether and to what extent the action achieves the expected results?</i>	<i>What are the sources of information for these indicators?</i>	<i>What external conditions must be met to obtain the expected results on schedule?</i>
Activities	<i>What are the key activities to be carried out and in what sequence in order to produce the expected results? (group the activities by result)</i>	Means: <i>What are the means required to implement these activities, e. g. personnel, equipment, training, studies, supplies, operational facilities, etc.</i>	<i>What are the sources of information about action progress?</i> Costs <i>What are the action costs? How are they classified? (breakdown in the Budget for the Action)</i>	<i>What pre-conditions are required before the action starts? What conditions outside the Beneficiary's direct control have to be met for the implementation of the planned activities?</i>
